

Re: Docket# 98N-1038, "Irradiation in the Production, Processing,  
and Handling of Food."

I want the FDA to continue to require labeling of food that has  
been treated with irradiation. The label should be conspicuous and  
include the logo for irradiation.

Your Signature: 

Additional comments: I don't want was food  
Genetically engineered I want to be able to determine  
what foods are irradiated & what's not. Thank you
